IN THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

- 1. (Currently amended) A kit for detecting the presence of one or more drugs in a beverage comprising a support having a plurality of drug detector strips permanently attached thereto wherein the support is sized such that when it is folded into two parts a first part is laid over the strips which are attached to the second part.
- 2. (Original) The kit of claim 1 wherein the kit comprises detector strips for detecting at least two different drugs.
- 3. (Original) The kit of claim 2 where the kit comprises at least one strip for detecting benzodiazepines and at least one detector strip for detecting gamma hydroxy butyrate.
- 4. (Original) The kit of claim 2 wherein the kit comprises at least one strip for detecting one or more of drugs selected from the group consisting of ketamines, 3,4-methylenedioxy-N-methylamphetamine, cocaine, barbiturates, opiates, tricyclic antidepressants, acetaminophen, propoxyphene, and phencyclidine.
- 5. (Original) The kit of claim 2 wherein the kit comprises at least one strip for detecting alcohol.
- 6. (Original) The kit of claim 1 wherein each detector strip can detect one drug or drug type.
- 7. (Original) The kit of claim 1 wherein each detector strip can detect at least two drugs or drug type.
- 8. (Original) The kit of claim 1 wherein the kit comprises at least two of each type of detector strips.
- 9. (Original) The kit of claim 1 wherein the detector strip comprises reagents for immunoassay, chemical spot assay, enzyme assay, or a combination thereof.
- 10. (Original) The kit of claim 9 wherein the detector strip uses colour change chemistry.
- 11. (Original) The kit of claim 9 wherein the detector strip comprises a bed supporting the reagents.
 - 12. (Canceled)

- 13. (Currently amended) The kit of claim [[12]] 1 wherein the support is formed from cardboard or plastics material.
- 14. (Original) The kit of claim 1 wherein the detector strips are formed integrally with the support and are connected thereto by a frangible flange.
- 15. (Original) The kit of claim 14 wherein the support is formed from cardboard or plastics material.
- 16. (Original) The kit of claim 1 wherein the detection strips are attached to the support by means of an adhesive.
 - 17. (Original) The kit of claim 1 further comprising a cover for the support.
- 18. (Original) The kit of claim 17 wherein the cover is integral with the support.
 - 19. (Canceled)
- 20. (Currently amended) The kit of claim [[19]] 17 wherein a third part is present which at least partially folds over the first part when it is in a closed position to help hold the first part in position.
- 21. (Original) The kit of claim 17 wherein the cover is a wallet or box into which the support is placed.
- 22. (Original) The kit according to claim 1 wherein the kit is configured to resemble a match book.
- 23. (Original) The kit of claim 1 wherein the support is made from nonplastics material and is coated on at least one surface with a water-resistant coating to provide protection.
- 24. (Original) The kit of claim 1 wherein the support is printed with instructions for use.
- 25. (Currently amended) A kit for detecting the presence of one or more drugs in a beverage comprising:
 - a support and;

a plurality of drug detector strips for detecting at least two drugs or drug types selected from the group consisting of benzodiazepines, gamma hydroxy butyrate, ketamines, 3,4-methylenedioxy-N-methylamphetamine, cocaine, barbiturates, opiates, tricyclic antidepressants, acetaminophen, propoxyphene, phencyclidine, and alcohol:

wherein the detector strips are permanently attached to the support;

the detector strips comprise reagents for immunoassay, chemical spot assay, enzyme assay, or a combination thereof; and

the detector strip uses color change chemistry to indicate the presence of a drug;

wherein the support is sized such that when it is folded into two parts a first part is laid over the strips which are attached to the second part.
